h. [] discussed the utilization of Room 147 as a vault area with [] Logistics Office, and [] Security Office. In view of [] dated 18 January 1955, it was thought that the best plan would be to convert Room 147 to a vault, thus enabling us to release ten safes. However, [] feels that from a strict security standpoint the material to be stored in Room 147 would be much better protected if it were stored in safes rather than in key lock filing cabinets in a vault area. The problems raised must be resolved by the Logistics and Security offices. [] will continue to press for an answer.
